

ClassPak is a Web-based instructional support tool that helps teachers build, deliver and manage reading, writing and speaking quizzes, lessons, and assignments throughout the year.

ClassPak is pre-loaded with STAMP-like, realia-based content for educators to use to build quizzes and activities for their proficiency-oriented classroom. It can also familiarize students with the STAMP test experience, since ClassPak quiz items resemble STAMP test items.

ClassPak saves teachers the work of searching for authentic texts to use in lessons and quizzes, and affords them the flexibility to customize the tool utilizing the large database of authentic texts. Using ClassPak throughout the school year typically results in higher proficiency levels among students tested with STAMP.

AVANT CLASS PAK

tutorial

Welcome to ClassPak For Teachers

Welcome to the Classpak tutorial site! This online tutorial will lead you through the various sections of the ClassPak online instructional support tool. To begin using the tutorial, select one of the categories on the right, and follow the links through that section. Be sure to look closely at the HINTS, TIPS, and POINTS throughout the tutorial to gain added insights and hints. Clicking on the Main Menu button will return you to this navigation screen.

If you need assistance with the tutorial or would like more information about ClassPak, please contact our Help Desk at support@avantassessment.com or call toll free

 (888) 718-7887 . If you have questions about buying ClassPak, please email info@avantassessment.com or call  (888) 718-7887 .

ClassPak Benefits for Teachers and Programs

- Provides extensive realia and STAMP-like proficiency-focused assessments and lessons.
- Fosters a more consistent learning environment from one classroom, school, or district to the next, because teachers use standardized rubrics to grade writing and speaking items
- Reduces staff burden by instantly grading all reading quizzes.
- Improves reliability by automatically grading all reading quizzes and providing rubrics for teachers use in grading writing/speaking.
- Enables data-driven instruction with instant online teacher access to quiz data.
- Facilitates staff development and reflective teaching, with easy, online access to student and class data over time.
- Assists teachers in creating a more proficiency-oriented classroom
- Helps teachers build, deliver and manage reading, writing and speaking quizzes, lessons, and assignments.

ClassPak Benefits for Students

- Engages students in real-world language situations
- Clearly explains what each student can do with the language
- Prepares students for STAMP
