

# CHARACTER ACTIVATION GUIDE

## Traditional Chinese – Mac OS X

To activate Traditional Chinese Characters for your Macintosh OS X system, please follow these 7 simple steps.

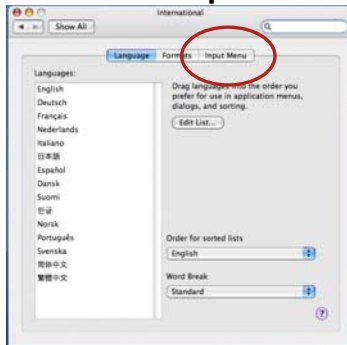

1. Start from the **Apple** and go to **System Preferences**.

2. Click on **Language & Text** (also called **International** in earlier OS X versions).

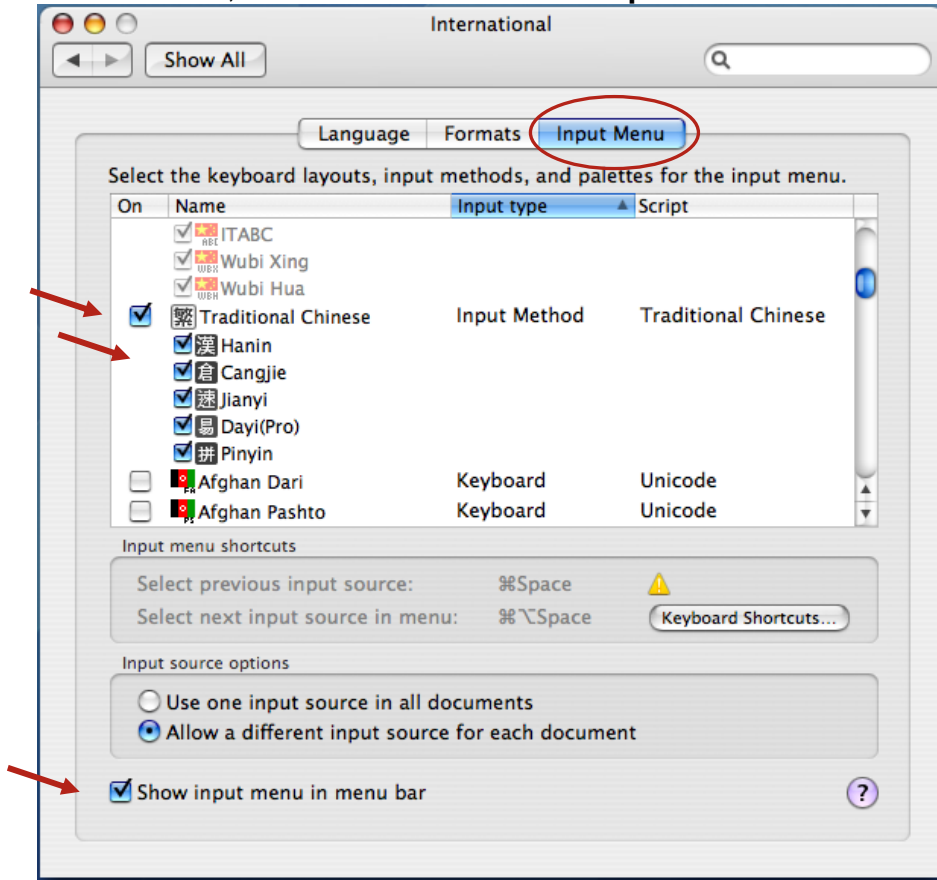

3. Click on the **Input Sources** tab (also called **Input Menu** in earlier OS X versions).

4. Select **Traditional Chinese** input methods.
5. At the bottom, Click to select the **Show input menu in menu bar** option.

6. Click on the **flag** in the top right corner of your desktop and choose an input system for Traditional Chinese.

7. Practice typing in Chinese characters in the Chinese Traditional Practice Test at <http://www.stampstest.net>.
